REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENT TO THE CHAIRMAN AND BOARD OF DIRECTORS OF AFAQ FOR ENERGY PUBLIC SHAREHOLDING COMPANY AMMAN - JORDAN

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Afaq for Energy (a Public Shareholding Company) ("the Company") and its subsidiaries ("the Group") as at 30 September 2018, comprising the interim consolidated statement of financial position as at 30 September 2018 and the interim consolidated statements of comprehensive income and the interim consolidated statements of cash flows for the nine-month period then ended and explanatory notes. Board of Directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

Emphasis of a matter

The Group's current liabilities exceeded its current assets by JD 126,269,090 as of 30 September 2018. This indicates a material uncertainty of the Group's ability to continue as a going concern and to meet its short-term liabilities during the next 12 months. The Group's management is seeking new financing from banks to reschedule its existing loans. Our conclusion is not qualified in respect of this matter.

Amman – Jordan 31 October 2018

(1) GENERAL INFORMATION

Afaq for Energy was established as a public shareholding company on 5 August 2008 with an authorized and paid in capital of JD 5,000,000, divided into 5,000,000 shares with a par value of JD 1 per share. The company has increased its capital several times over the years to become JD 110,000,000 divided into 110,000,000 shares with a par value of JD 1 per share.

The main objective of the Company is to invest in the capital of the companies that operate in the energy sector.

Jordan Modern Oil and Fuel Services Company (subsidiary) signed an agreement with the Ministry of Energy and Natural Resources on 20 November 2012 in which the company got the rights of distributing and marketing the oil products in addition to any other oil services authorized in Jordan for a period of ten years from the commercial operations starting date. The commercial operations has started in May 2013.

The headquarter of the group is located in Queen Alia Airport road, Amman - Hashemite Kingdome of Jordan

(2) Basis of Preparation Interim Financial Statements

(2.1) Basis of preparation

The interim condensed consolidated financial statements for the nine months period ended 30 September 2018 have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The consolidated financial statements are presented in Jordanian Dinars "JD" which is the functional currency of the Group.

The interim condensed consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Group's annual report as of 31 December 2017. In addition, results of the nine months period ended 30 September 2018 is not necessarily indicative of the expected results for the financial year ending 31 December 2018.

(2.2) Changes in accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2017, except for the adoption of new amendment effective as of 1 January 2018:

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments replaces IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group had previously implemented the first phase of IFRS 9 as issued during 2009. The date of initial implementation of the first phase of IFRS 9 was 1 January 2011. The standard has been applied retrospectively and, in line with IFRS 9, comparative amounts have not been restated.

The impact of the adoption of IFRS 9 as at 1st January 2018 has been recognized in retained earnings in the statement of changes in equity. The standard eliminates the use of the IAS 39 incurred loss impairment model approach, uses the revised hedge accounting framework, and the revised guidance on the classification and measurement requirements.

The expected credit loss is calculated based on the difference between the cash inflows when contracting with the client and the cash inflow expected to be received. Where the difference is discounted using the actual interest rate over the due amount at contracting.

Impairment

The adoption of IFRS 9 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing IAS 39's incurred loss approach with a forward-looking expected credit loss (ECL) approach.

IFRS 9 requires the Group to record an allowance for ECLs for all debt instruments measured at amortized cost.

For all debt instruments, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group's policy to calculate ECLs of debt instruments is for a period of 12 months.

The group prepared a credit study based on the historical experience for credit losses, taking into consideration future factors related to the debtors and the economic environment. The group considers that there is a significant increase in credit risks when the re-payment of the receivable exceeds 60 days beyond the due date, and considers that there is a impairment in receivables when they exceed 365 days beyond the due date.

The adoption of the ECL requirements of IFRS 9 resulted in an increase in impairment allowances of the Group's accounts receivable by JD 1,119,843. The increase in allowance resulted in adjustment of the opening retained earnings balance with the same amount.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The Group adopted IFRS 15 using the modified retrospective approach. The effect of adopting IFRS 15 has no impact on the Group's consolidated financial statements.

IFRIC Interpretation 22 Foreign Currency Transactions and Advance Considerations

The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration.

This Interpretation does not have any impact on the Group's consolidated financial statements.

Amendments to IAS 40 Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

These amendments do not have any impact on the Group's consolidated financial statements.

Amendments to IFRS 2 Classification and Measurement of Share-based Payment Transactions

The IASB issued amendments to IFRS 2 Share-based Payment that address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled. On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met.

These amendments do not have any impact on the Group's consolidated financial statements.

Amendments to IAS 28 Investments in Associates and Joint Ventures - Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice

The amendments clarify that an entity that is a venture capital organisation, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

These amendments do not have any impact on the Group's consolidated financial statements.

(2.3) Basis of consolidation of financial statements

The interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries were the Company holds control over the subsidiaries. The control exists when the Company controls the subsidiaries significant and relevant activities and is exposed, or has rights, to variable returns from its involvement with the subsidiaries and has the ability to affect those returns through its power over the subsidiaries. All balances, transactions, income, and expenses between the Company and subsidiaries are eliminated. The subsidiaries included in the interim condensed consolidated financial statements are as follows:

Name of the company	Country of incorporation	Ownership percentage	Main activity
Jordan Modern Oil and fuel Services Company	Jordan	100%	Fuel distribution
Jordan Modern Importing and Exporting Company (Free Zone)	Jordan	100%	Motor oil and lubricants distribution
Jordan Modern Food Trading Company	Jordan	100%	Trading
Aqaba Bulk Chemicals Co.	Jordan	55%	Warehousing services

(3) LANDS, PROPERTY AND EQUIPMENT

The Group has purchased property and equipment amounting to JD 2,363,943 during the nine months period ended 30 September 2018 (30 September 2017: JD 23,997,792).

Included in this account, lands and buildings with a book value of JD 160,743,393 owned by Jordan Modern Oil and Fuel Services (a subsidiary), that are mortgaged against the Group's credit facilities as of 30 September 2018.(Notes 8&9)

(4) CASH AND CASH EQUIVALENT

For the purposes of preparing the interim cash flow statement, cash consists of the following:

	30 September 2018 JD (Unaudited)	30 September 2017 JD (Unaudited)
Cash on hand Cheques with maturities less than one month Cash at banks	1,366,945 17,058,512 6,775,478	3,654,250 15,907,044 5,051,970
