REVIEW REPORT

To the Board of Directors of Al Israa For Islamic Finance and Investment Company
(Limited Public Shareholding)

Material uncertainty related to going concern

Without modifying our opinion, we draw attention to Note (8) to the financial statements which indicates that the accumulated losses of the company amounted to 50% of the capital. Also, the granting of funds remains suspended until the date of the interim condensed financial statements. These events or circumstances, in addition to the other matters mentioned in the Note, are considered an indication of a material uncertainty that may cast significant doubt on the Company's ability to continue, as the Note shows the Company's actions and its future plan to counter that
