INTERIM CONDENSED FINANCIAL STATEMENTS (REVIEWED UNAUDITED)

FOR THE PERIOD ENDED 30 SEPTEMBER 2020

Ernst & Young Jordan P.O. Box 1140 300 King Abdulla Street Amman 11118 Jordan Tel:00962 6 580 0777 /00962 6552 6111 Fax:00962 6 5538 300 www.ey.com

REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF ISLAMIC INTERNATIONAL ARAB BANK AMMAN - JORDAN

Introduction

We have reviewed the accompanying interim condensed financial statements of Islamic International Arab Bank (Public Shareholding Company) as at 30 September 2020, comprising of interim condensed statement of financial position as at 30 September 2020 and the related interim condensed income statement, comprehensive income, changes in owners' equity, cash flows, and interim condensed sources and uses of funds of AI Qard AI Hasan Fund for the nine months period then ended and explanatory notes. The Board of Directors is responsible for the preparation and presentation of these interim condensed financial statements in accordance with the accounting policies described in Note (2) to the interim condensed financial statements. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Accounting and Auditing Standards for Islamic Financial Institutions and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with the accounting policies described in Note (2) to the interim condensed financial statements.

Amman – Jordan 25 October 2020

.

1. General

The Islamic International Arab Bank ("the Bank") was established as a Public Shareholding Limited Company on 30 March 1997 pursuant to the provisions of the company's law No. (22) of 1997.

The Bank provides all banking, financial, and investment activities that comply with Islamic Shari'a standards through its headquarters and its 45 branches inside the Kingdom. The Bank's transactions are governed by the applicable Bank's Law.

The Islamic International Arab Bank is wholly owned by the Arab Bank.

The interim condensed financial statements have been approved by the Bank's Board of Directors in their meeting No. (5) held on 22 October 2020.

2. Significant Accounting Policies

Basis of Preparation of the Interim Condensed Financial Statements:

The accompanying interim condensed financial statements of the Bank financed from the Bank's funds and the joint investment funds have been prepared in accordance with the Financial Accounting Standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI), and in conformity with applicable laws and regulations of the Central Bank of Jordan and in the absence of Financial Accounting Standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions relating to financial statements items, the International Financial Reporting Standards and related interpretations are applied in conformity with the Shari'a standards, pending the promulgation of Islamic Standards therefore.

The interim condensed financial statements have been prepared on the historical cost basis except for the financial assets at the fair value through owners' equity and the financial assets at the fair value through the joint investment account holder's equity, financial assets at amortized cost and investment in real estate.

The interim condensed financial statements have been presented in Jordanian Dinars (JD) which is the functional currency of the Bank.

The interim condensed financial statements do not contain all information and disclosures for annual financial statements prepared in accordance with Sharia' rules and principles determined by the Bank's Sharia Supervisory Board and in accordance with Financial Accounting Standards issued by Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI). It shall be read in conjunction with the Bank's annual report as at 31 December 2019. In addition, the results for the nine months period ended 30 September 2020 do not necessarily indicate the expected results for the year ending 31 December 2020 and no appropriation was made on the nine months period ended 30 September 2020 profit since it is made at year-end.

Changes in accounting policies

The accounting policies used in the preparation of the interim condensed financial statements are consistent with those used in the preparation of the annual financial statements for the year ended 31 December 2019 except for the adoption of new standards effective as of 1 January 2020 as shown below:

FAS 31 Investment Agency (AI-Wakala Bi AI-Istithmar)

This standard defines the accounting principles and reporting requirements for investment agency (AI-Wakala Bi AI-Istithmar) transactions and instruments, in the hands of both the investor and the agent. This standard shall be effective beginning on or after 1 January 2020, with early adoption permitted.

The standard requires the investor to evaluate the nature of the investment as either a) a passthrough investment or b) Wakala Venture.

Pass-through Investment

A pass-through investment is an investment in which the involvement of the Wakeel, as well as, the options for transferability of the instrument are limited and the investor principally takes a

direct exposure on the underlying assets. An investor shall apply the pass-through investment approach for its investments in an investment agency instruments; unless it opts to apply the Wakala Venture approach.

Under this approach, the investor shall initially recognize the assets underlying the Wakala Arrangement in its books of account applying the initial recognition principles as applicable in line with respective FAS.

Wakala Venture Approach

The investor may opt to apply the Wakala Venture approach if, and only if, the investment agency contract meets any of the conditions required under certain conditions.

Under this approach, an investment shall be accounted for in the books of the investor applying the "equity method of accounting"; where the investment shall be recognized initially at cost and subsequently shall be measured at the end of the financial period at carrying amount and shall be adjusted to include the investor's share of profit or loss of the The investor may opt to apply the Wakala Venture approach if, and only if, the investment agency contract meets any of the conditions required under certain conditions.

From the Wakeel perspective, the standard requires that at inception of the transaction the Wakeel shall recognize an agency arrangement under off-balance sheet approach since the Wakeel does not control the related assets / business. However, there are exceptions to off-balance sheet approach where by virtue of additional considerations attached to the instrument based on investment agency may mandate the same to be accounted for as on-balance sheet.

FAS 34 Financial Reporting for Sukuk -holders

This standard prescribes the accounting principles and reporting requirements for underlying assets of a sukuk instrument. It requires the originator to prepare or cause to prepare financing reports as needed under this standard.

3. Uses of Estimates

Preparation of the interim condensed financial statements and application of accounting policies require the Bank's management to perform estimates and assumptions that affect the amounts of financial assets and financial liabilities, fair value reserve and disclosure of contingent liabilities. These estimates and assumptions also affect the revenue, expenses and provisions as well as the changes in fair value reported in the statement of comprehensive income. In particular, the Bank's management is required to make significant judgements for estimating the amounts and timing of future cash flows. Moreover, the said assessments are necessarily based on several assumptions and factors with varying degrees of consideration and uncertainty. Furthermore, the actual results may differ from the estimates due to the changes resulting from the conditions of such estimates in the future. In the opinion of management, the estimates used in the interim condensed financial statements are reasonable.

In the opinion of management, the estimates used in the financial statements are reasonable.

A provision for lawsuits raised against the Bank is taken based on a legal study prepared by the Bank's legal advisor. The study highlights potential risks that the Bank may encounter in the future. Such legal assessments are reviewed periodically.

The determination of provision for expected credit losses on financial assets requires the Bank's management to make judgments. The Bank's Management is required to make significant judgements for estimating the amounts and timing of future cash flows, as well as to estimate any significant increase in the credit risk of financial assets after initial recognition, and to take into account future measurement information for expected credit losses.

As a result of the continuance effect of Corona virus (COVID-19) on the world economy and different business sectors and what accompanied this pandemic from restrictions and procedures which were imposed by the Jordanian government, neighboring countries, and the rest of the world, it's possible that the operating activities might get affected by the world developments which is currently affecting different economic sectors.

Although the extent and period of these effects are not clear yet as it depends on future developments that can't be forecasted precisely in the meantime, the bank has adjusted the macroeconomics factors based on the latest issuance of the International Monetary Fund, which negatively affected the calculation of expected credit loss (ECL).

Inputs, assumptions and techniques used for ECL calculation – IFRS9 Methodology

Key concepts in IFRS 9 that have the most significant impact and require a high level of judgment, as considered by the Group while determining the impact assessment, are:

Assessment of Significant Increase in Credit Risk

To assess whether the credit risk on a financial asset has increased significantly since origination, the Group compares the risk of default occurring over the expected life of the financial asset at the reporting date to the corresponding risk of default at origination, using key risk indicators that are used in the Group's existing risk management processes.

Our assessment of significant increases in credit risk will be performed at least quarterly for each individual exposure based on three factors. If any of the following factors indicates that a significant increase in credit risk has occurred, the instrument will be moved from Stage 1 to Stage 2:

- 1. We have established thresholds for significant increases in credit risk based on movement in PDs relative to initial recognition.
- 2. Additional qualitative reviews will be performed to assess the staging results and make adjustments, as necessary, to better reflect the positions which have significantly increased in risk.
- 3. IFRS 9 (Financial Instruments) includes an assumption of a significant increase in the credit risk of financial instruments that have defaulted and matured for more than 30 days. Within the instructions of the Central Bank of Jordan, it is assumed that there is a significant increase in the credit risk of financial instruments that have defaulted and are due for more than 30 days.

Movements between Stage 2 and Stage 3 are based on whether financial assets are creditimpaired as at the reporting date. The determination of credit-impairment under IFRS 9 will be similar to the individual assessment of financial assets for objective evidence of impairment under IAS 39, as mentioned in the "Definition of default" below.

• Macroeconomic Factors, Forward Looking Information (FLI) and Multiple Scenarios

The measurement of expected credit losses for each stage and the assessment of significant increases in credit risk must consider information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions. The estimation and application of forward-looking information will require significant judgment.

PD, Loss Given Default (LGD) and Exposure At Default (EAD) inputs used to estimate Stage 1 and Stage 2 credit loss allowances are modelled based on the macroeconomic variables (or changes in macroeconomic variables) that are most closely correlated with credit losses in the relevant portfolio.

Each macroeconomic scenario used in expected credit loss calculation will have forecasts of the relevant macroeconomic variables.

The estimation of expected credit losses in Stage 1 and Stage 2 will be a discounted probabilityweighted estimate that considers a minimum of three future macroeconomic scenarios.

The base case scenario will be based on macroeconomic forecasts (e.g.: GDP, inflation, interest rate). Upside and downside scenarios will be set relative to our base case scenario based on reasonably possible alternative macroeconomic conditions. Due to the recent developments and the abnormal situation resulted from COVID-19, an additional downside scenario was used by the management for calculating the ECL for the period ended 30 September 2020. Accordingly, the Bank has updated the macroeconomic factors used for calculating the ECL for the period ended 30 September 2020 in addition to changing the probability of weights assigned to the macroeconomic scenarios by giving higher weight to the downside scenarios.

Scenarios will be probability-weighted according to the best estimate of their relative likelihood based on historical frequency and current trends and conditions. Probability weights will be updated on a quarterly basis. All scenarios considered will be applied to all portfolios subject to expected credit losses with the same probabilities.

Definition of default

The definition of default used in the measurement of expected credit losses and the assessment to determine movement between stages will be consistent with the definition of default used for internal credit risk management purposes. IFRS 9 does not define default, but contains a rebuttable presumption that default has occurred when an exposure is greater than 90 days past due.

The Group has set out the definition of default where a default is considered to have occurred when either or both of the two following events have taken place:

- The obligor is considered unlikely to pay its credit obligations in full
- The obligor is past due for 90 days or more on any material credit obligation.

• Expected Life

When measuring ECL, the Group must consider the maximum contractual period over which the Bank is exposed to credit risk. All contractual terms should be considered when determining the expected life, including prepayment options and extension and rollover options. For certain revolving credit facilities that do not have a fixed maturity, the expected life is estimated based on the period over which the Group is exposed to credit risk and where the credit losses would not be mitigated by management actions.

The financial period is charged with its share of the income tax expense in accordance with the accounting regulations, laws and standards; and the necessary tax provision is calculated.

Management carries out a periodical review of financial assets recorded at cost to estimate any impairment in their value. This impairment (if any) is recorded in the income statement for the year.

ISLAMIC INTERNATIONAL ARAB BANK – PUBLIC SHAREHOLDING LIMITED COMPANY NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS 30 SEPTEMBER 2020 (UNAUDITED)

Fair value measurement: The standard requires determination and disclosure of the level in the fair value hierarchy into which the fair value measurements are categorized in their entirety, segregating fair value measurements in accordance with the levels defined in IFRSs. The difference between level (2) and level (3) of the fair value measurements, i.e., assessing whether the inputs are observable and whether the unobservable inputs are significant. This may require judgement and careful analysis of the inputs used to measure fair value, including consideration of factors specific to the asset or liability.

Useful lives of tangible and intangible assets:

Management estimates the useful lives of tangible and intangible assets upon initial recognition. Moreover, Management periodically re-assesses the useful lives of tangible and intangible assets to calculate annual depreciation and amortization based on the general condition of those assets and estimates of the productive activities expected in the future. The impairment loss (if any) is charged to the income statement.

The factors that affect the estimated useful lives of tangible and intangible assets include Management's estimates for the period in which the Bank is expected to use these assets as well as technological development and obsolescence.

The difference between the useful lives of tangible and intangible assets and Management's estimates significantly affect the depreciation expense and the gain/ loss arising from their disposal.

Management periodically revaluates the real estate within the investments in real estate portfolio, and a provision is taken for any impairment in their value within the investment risks Fund. Moreover, the portfolio is within the joint investment whereby building within such portfolio are depreciated at 2% per annum.

Significant estimates related to determining the duration of the lease contract for contracts that include the option to renew the contract.

The Bank determines the duration of the lease contract as the non-cancellable period, considering the periods covered by the option to extend the lease if this option is certain to be exercised, or any periods related to the option to terminate the lease, if it is certain that the bank does not exercise this option.

Under some lease contracts, the Bank has the right to lease the assets for additional periods. The Bank makes some estimates when assessing whether it is certain to exercise the renewal option.

This means that the Bank considers all relevant factors that constitute an economic incentive to exercise the option of renewal. Subsequently, the Bank reassesses the term of the lease in the event of a significant event or change in the conditions under its control, which may affect its ability to exercise (or not exercise) the renewal option (for example, a change in the business strategy).

The Bank has included the renewal period as part of the lease duration due to the importance of these assets in its operating operations. The contract term that is not subject to termination for some of these assets is relatively short and, in the event, that these contracts are canceled, the operational process will be negatively affected in the absence of alternatives to these assets.

4. Cash and balances with Central Bank

Restricted statutory cash reserve amounted to JD 84,415,329 as of 30 September 2020 (JD 121,523,501 as at 31 December 2019).

Except for the statutory cash reserve as of 30 September 2020 and 31 December 2019, there are no restricted cash balances.

5. Balances with Banks and financial institutions

18. Commitments and Contingent Liabilities (Off - Balance sheet)

Credit contingent and commitment:

	30 September 2020	31 December 2019
	JD JD	
	(Unaudited)	(Audited)
Letters of credit	22,448,814	30,964,960
Acceptances	7,833,934	13,200,009
Letters of Guarantee:		
Payment	15,847,896	6 14,629,603
Performance	12,713,962	14,481,465
Others	10,712,121	10,143,530
Unutilized limits – self	58,542,938	53,557,095
Unutilized limits – joint	132,953,068	8 122,854,751
Total	261,052,733	3 259,831,413

The movement on expected credit losses for indirect facilities and unutilized limits as at the end of the period/ self is as follows:

Item	Stage 1	Stage 2	Stage 3	Total	
	JD	JD	JD	JD	
Balance at the beginning of the					
period (Adjusted)	305,605	44,464	84,290	434,359	
Transferred to stage 1	9,692	(9,692)	-	-	
Transferred to stage 2	-	-	-	-	
Transferred to stage 3	-	-	-	-	
Difference due to movements					
between stages	130,217	(2,979)	3,617	130,855	
Balance at the end of the period	445,514	31,793	87,907	565,214	

The movement on expected credit losses for unutilized limits as at the end of the period/ joint is as follows:

Item	Stage 1	Stage 2	Stage 3	Total
	JD	JD	JD	JD
Balance at the beginning of the				
period (adjusted)	89,986	37,078	-	127,064
Transferred to stage 1	30,354	(30,354)	-	-
Transferred to stage 2	(497)	497	-	-
Transferred to stage 3	-	-	-	-
Difference due to movements				
between stages	55,247	22,381	-	77,628
Balance at the end of the period	175,090	29,602	-	204,692

The expected credit loss provision for the off-balance sheet- self and joint included in the other liabilities.

19. Lawsuits against the Bank

The lawsuits filed against the Bank amounted to JD 78,000 with a provision of JD 17,267 as at 30 September 2020 (JD 289,022 as at 31 December 2019 with a provision of JD 17,267). Based on the opinion of the legal advisor, no additional amounts will be claimed from the Bank in respect to those lawsuits.

20. Fair Value Measurement

The standard requires determining the level and disclosure of the fair value hierarchy into which the fair value measurements are categorized in their entirety, segregating fair value measurements in accordance with the levels defined in IFRS. The difference between level (2) and level (3) of the fair value measurements, i.e., assessing whether the inputs are observable and whether the unobservable inputs are significant. This may require judgement and careful analysis of the inputs used to measure fair value including consideration of factors specific to the asset or liability.

a. <u>The Bank's Fair Value of Financial Assets and Financial Liabilities Measured at Fair Value on a</u> <u>Recurring Basis:</u>

Some of the Bank's financial assets and financial liabilities are measured at fair value at the end of each financial period. The following table gives information about the method of determining the fair value of such financial assets and financial liabilities (valuation techniques and key inputs)

Financial Assets / Financial Liabilities	Fair Va	lue as at	Fair Value Hierarchy	Valuation Techniques and Key Inputs	Significant Unobservable Inputs	Relationship between Significant Unobservable Inputs and Fair Value
	30					
	September 2020	31 December 2019				
	JD	JD				
	(Unaudited)	(Audited)				
Financial Assets at Fair Value:						
Financial Assets at Fair Value through Shareholders' Equity – Self						
				Quoted prices in the Financial		
Quoted shares	5,490,208	5,616,930	Level 1	Markets	Not Applicable	Not Applicable
Financial Assets at Fair Value through joint investment account						
Unquoted shares	3,193,889	2,662,444				
Total	8,684,097	8,279,374				

There were no transfers between Level (1) and Level (2) during the nine months period ended 30 September 2020 and 2019.

<u>b. The Bank's Fair Value of Financial Assets and Financial Liabilities not Measured at Fair Value</u> on a Recurring Basis:

Except for what is detailed in the table below, we believe that the carrying amounts of the financial assets and financial liabilities presented in the Bank's financial statements approximate their fair values:

	30 Septer	nber 2020	31 Decer	31 December 2019		
	Book Value JD (Unaudited)	Fair Value JD (Unaudited)	Book Value JD (Audited)	Fair Value JD (Audited)	Fair Value Hierarchy	
Financial Assets not measured at Fair Value	(Unaddited)	(Onaddited)	(Auditeu)	(Addited)		
Deferred sales receivables	824,950,452	824,975,404	751,650,832	751,777,070	Level 2	
Investments in real estate	23,262,140	25,985,837	23,177,139	26,669,851	Level 2	
Financial assets at amortized cost	33,574,736	33,919,053	27,385,345	27,637,917	Level 1	
Financial assets at amortized cost –						
Unquoted	4,925,300	4,987,361	5,957,400	5,987,957	Level 2	
Total financial assets not measured at fair value	886,712,628	889,867,655	808,170,716	812,072,795		
Financial Liabilities not measured at Fair Value Customers' current and unrestricted						
accounts	2,153,436,293	2,163,516,114	1,978,875,605	1,987,892,579	Level 2	
Cash margins	26,723,958	26,830,622	31,372,032	31,559,768	Level 2	
Total Financial Liabilities not measured at Fair Value	2,180,160,251	2,190,346,736	2,010,247,637	2,019,452,347		

Regarding the items described above, the fair value of the financial assets and liabilities has been determined for Levels (2) and (3) in accordance with the generally accepted pricing models which reflect the credit risk with the parties dealt with.

21. Comparative Figures

Some of the comparative figures for the period ended 30 September 2019 have been reclassified to correspond with the financial statements figures for the period ended 30 September 2020.
